Care and Maintenance for Protected Leather

Dust frequently with a clean dry cloth. Wipe occasionally with a mild ivory soap and water solution on a clean damp cloth. Repeat with a damp cloth and dry with a clean cloth to restore the beautiful patina of the leather. DO NOT use saddle soap, polish, wax or any cleaning agents other than a mild ivory soap and water solution. The use of any cleaning substances other than a mild ivory soap and water solution will negate any warranties from the leather tannery.

Care and Maintenance for UnProtected Leather

This is a “natural” leather that cannot be cleaned because it does not have a protected coating. Leather Solutions has products available that may help the performance of this leather.

You may reach Leather Solutions for assistance at (336-629-4998 or email leather solutions@live.com).

Thank you,
